

Environmental Policy

General statement of policy

The management and all who work at Latimer Trend are committed to the environment and the prevention of pollution.

Latimer Trend ensures that all our activities are carried out in conformance with relevant compliance obligations.

Latimer Trend are committed to protecting and enhancing the environment.

In line with this, Latimer Trend seeks to minimise waste arisings, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, to work with suppliers who themselves have sound environmental policies.

An essential feature of the environmental management system is a commitment to continually improving environmental performance. This is achieved by setting environmental objectives and targets which are regularly monitored and reviewed. These objectives and targets are publicised throughout the organisation and all staff are committed to their achievement.

In order to ensure the achievement of the above commitments, Latimer Trend has implemented an environmental management system which satisfies the requirements of ISO 14001:2015.
